Thanks Nancy. I called and left a message on Devon's voicemail system.

Nancy,

I called and left messages for Mr Gaby and Mr. Johnson.

By the way, do you recall the name of the operator for the gas well on Russell Road? I wanted to call and give them a heads-up on the Thursday meeting. Thanks.

That's good news. Have you advised Mr. Gaby of the results, or would you like for me to contact him?

Thanks.  
Nancy

**Subject:** Update on Circle Court Drum Assessment

We received the waste characterization results for the liquid waste in the drum located on Russell Road and the only VOC detected was TCE at 0.274 mg/L. The drum contents are considered non-hazardous and may be shipped for off-site disposal the week of August 6th. While this was a TCLP analysis using 8260B, the results are comparable to a total VOC analysis and at least confirms that a TCE liquid or residue was present in the drum. Please let me know if you have any questions.  
Thanks.
